Re: Patient Account Number 26333544A2983

I am disputing a charge on my statement dated 5/18/24 for the original cost of \$223.00 and balance of \$202.11. The bill is in error because I was not given all the required information about the care, and the service was not completed.

The provider did not follow the rules around notice and consent per the No Surprises Act. I was not asked for my consent to the service, or given notice of a charge associated with "INFECT AGNT DETECT BY DNA/RNA; 3-5 TARGETS". Health care providers are required to give an estimate of the cost of the services to your health plan. I was not provided an estimate. In addition, the service was not fulfilled, as I was never provided the results. I cannot create or access the account after calling and emailing 4 times.

Please remove this charge from my account. Thank you in advance for your prompt attention to this matter.

Sincerely,

Tember Hopkins

Re: Patient Account Number 19220327A2983

I am disputing a charge on my statement dated 5/17/24 for the original cost of \$300.00 and balance of \$229.20. The bill is in error because I was not given all the required information about the care.

The provider did not follow the rules around notice and consent per the No Surprises Act. Health care providers are required to give an estimate of the cost of the services to your health plan. I was not provided an estimate. I also have not received an itemized receipt of the services "UCC E&M GLOBAL".

Please remove this charge from my account. Thank you in advance for your prompt attention to this matter.

Sincerely,

Tember Hopkins
